

Nevada Restaurant Association Legislative Update 2017

The Legislative session is over! The business community and our members were united together to support businesses rights. This session was largely about defeating continuous efforts to roll back the reforms we were able to achieve last session and defeating the numerous pieces of legislation this session that sought to implement the national progressive agenda regarding employees "rights".

The bill was later amended to set the wage beginning at \$9.40 with annual increases of \$1.15 until it reaches \$14. It also adds a provision allowing the legislature to adjust the wages. This resolution passed in the Senate and Assembly on a party line vote. It is not subject to the Governor's veto but will have to be passed again in the 2019 legislative session without change and then go to a vote of the people during the 2020 election cycle.
